

## TEACHING OVERVIEW

We recognise church leaders will want to know a little more about what will be taught at this training course so we have created this overview detailing the aims and objectives, teaching content and practical skills that will be covered.

### AIMS & OBJECTIVES

Our aim is that this training provides space for young people to dig deeper in understanding themselves and explore their leadership qualities. We aim to develop those qualities and prepare them for leadership, whether that be at MCYC this year, in their youth group at church or in any other setting they might find themselves in. Our objective is to take them on to the next level in leadership and encourage them to sign up to a week of MCYC and put their learning into action.

We want to provide training that prepares and equips them for a leadership role, no matter what level they are at, by enabling them to find their God-given gifts and know how most effectively to use them.

The weekend will cover several areas, both in theory, practical sessions and activities that help them discover the type of leader God wants them to be. From individual personality types, to how the bible shows us how Jesus led; this training is ideal for people who are looking at how to make an impact in their world.

Building up the key values of Christian leadership:

- Love
- Integrity
- Humility
- Compassion
- Authenticity
- Spiritual gifts
- Focus and vision

***“Serve wholeheartedly, as if you were serving the Lord, not people” - Ephesians 6 v 7***
